

Material Safety Data Sheet

According to 91/155 EEC

This Material Safety Data Sheet applies to all the Gen-Probe Diacclone **Fluorospots kits****1/ Data on components**

Regarding components comprised in the kit, following products are defined as hazardous chemical according the Directive 67/548/EEC

Accordingly, Material Safety Data sheets(s) for the chemical(s) are enclosed

Fluorescein Isothiocyanate Isomer I : is used to label FITC conjugated detection antibody.**Sodium Azide**: at a final concentration < 0,1% is used as a preservative in the following components of the kit:
Fluorescence Buffer**Pentachlorophenol** : included in the Streptavidin Phycoerythrin conjugate at a concentration <0,01% (w/v)

Other chemical contained within these products do not meet definition of a hazardous chemical according EC Directives.

2/ General information

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. GEN-PROBE DIACLONE SAS shall not be liable for any damages resulting from handling or from contact with the above products.

Section 1 - Identification of substance**Product Identification:**Fluorospot kits
FITC conjugated detection antibody**Manufacturer:**GEN-PROBE DIACLONE SAS
1, Bd Fleming
F-25000 Besançon
FranceTel: +33 3 81 41 38 38
Fax: +33 3 81 41 36 36
e-mail: diacclone@gen-probe.com
www.gen-probe.com**Section 2 - Data on components****Chemical characterization:** Preparation

Hazardous ingredients:	%	CAS Number	EC Number
Fluorescent Isothiocyanate Isomer I	< 5%	3326-32-7	222-042-0
	Xn R42/43		

Additional information:

The data and advice relate to the concentrations not of the lyophilized powder, but of the prepared solution

Section 3 - Hazard Identification**Hazard Description:** not applicable**Information concerning to particular hazards to man and environment:** not applicable**Section 4 - First Aid Measures****After inhalation** Supply fresh air; consult doctor in case of complaints

Material Safety Data Sheet

According to 91/155 EEC

After skin contact Flush skin with plenty of soap and water for at least 15 minutes while removing contaminated clothing and shoes.

After eye contact Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower lid.

After ingestion Allow the victim to rinse his mouth and then drink 2-4 cupfuls of water, and seek medical advice.

Section 5 - Fire Fighting Measures

Suitable extinguishing agents

CO₂, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Protective equipment No special measures required

Section 6 - Accidental Release Measures

Person-related safety precautions: Wear protective equipment. Keep unprotected persons away.

Measures for environmental protections

Material Safety Data Sheet

According to 91/155 EEC

Prevent seepage into sewage system, workpits and cellars.

Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

Measures for cleaning / collecting

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Use neutralizing agent.

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

Section 7- Handling and storage

Handling:

Information for safe handling: Avoid contact with eyes, skin and clothing. Keep container tightly closed. Use with adequate ventilation.

Information about fire - and explosion protection:

The product listed in this MSDS contains sodium azide, a chemical highly toxic in pure form. At product concentrations, though not classified as hazardous, concentration build-ups of sodium azide may react with lead and copper plumbing to form highly explosive metal oxides. Flush with large volumes of water to prevent azide build-up in plumbing.

Storage:

Requirement to be met by storerooms and receptacles: Store in a cool, dry, well-ventilated area.

Information about storage in one common storage facility: Keep in tightly closed container.

Further information about storage conditions: None

Storage class:

Class according to regulation on flammable liquids: void

Section 8 - Exposure Controls / Personal Protection

Additional information about design of technical facilities: No further data; see section 7

Ingredients with limit values that require monitoring at the workplace

The product does not contain any relevant quantities of material with critical values that have to be monitored at the workplace.

Personal protective equipment

General protective and hygienic measures

The usual precautionary measures are to be adhered to when handling chemicals

Respiratory protection: Not required

Protection of hands: Protective gloves

Eye Protection: Goggles recommended during refilling

Section 9 - Physical and Chemical Properties

Form: Liquid

Colour: pale yellow

Odour: Odourless

Melting point/Melting range: N/A

Boiling point/Boiling range: N/A

Flash point: Not applicable

Danger of explosion: Product does not present an explosion hazard

Density: N/A

Solubility in / Miscibility with

water : fully miscible

Section 10 - Stability and Reactivity

Thermal decomposition: No decomposition if used according to specifications

Reactivity and under what conditions: Incompatible with alcohols, bases, amines, acids.

Dangerous decomposition products:

Toxic fumes of carbon monoxide, carbon dioxide and nitrous oxides.

Material Safety Data Sheet

According to 91/155 EEC

4

Section 11 - Toxicological Information

Material Safety Data Sheet

According to 91/155 EEC

Route of entry: Skin Contact, Eye contact, Inhalation, Ingestion

Effects of acute exposure to Product:

Nocif in case of ingestion, inhalation or skin contact.

Irritant effect on the skin, and eyes.

Effects of chronic exposure to Product:

Long term exposure may cause asthma, nausea, dizziness and headache.

Exposure Limits	Irritancy	Sensitization To Product	Carcinogenicity
N/A	N/A	N/A	N/A
Terratogenicity	Reproductive Toxicity	Mutagenicity	Synergistic Products
N/A	N/A	N/A	N/A

Section 12 - Ecological Information

General Notes: Information not yet available

Section 13 - Disposal considerations

Waste disposal: dispose of in accordance with local official environmental regulations

Section 14 - Transport Information

Special shipping information: N/A

Section 15 - Regulations

Labelling according to European labelling guidelines:

Observe the general safety regulations when handling chemicals.

Section 16 - Other information

This information is prepared on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Section 2 - Data on components

Hazardous ingredients:	%	CAS Number	EC Number
Sodium Azide	<0,1%	26628-22-8	247-852-1
T+ ; R28-R32; N; R50-53			

Additional information:

The data and advice relate to the concentrations not of the lyophilized powder, but of the prepared solution

Section 3 - Hazard Identification

Hazard Description: not applicable

Material Safety Data Sheet

According to 91/155 EEC

Information concerning to particular hazards to man and environment: not applicable

Section 4 - First Aid Measures

General information No special measures required

After inhalation Supply fresh air; consult doctor in case of complaints

After skin contact Generally the product does not irritate the skin

After eye contact Rinse opened eye for several minutes under running water

After ingestion If symptoms persist consult doctor

Section 5 - Fire Fighting Measures

Suitable extinguishing agents

CO₂, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Protective equipment No special measures required

Section 6 - Accidental Release Measures

Person-related safety precautions: Not required

Measures for environmental protections

Dilute with plenty of water.

Do not allow to enter sewers / surface or ground water.

Measures for cleaning / collecting

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Section 7- Handling and storage

Handling:

Information for safe handling: Avoid breathing dust, vapor, mist or gas. Avoid contact with eyes, skin and clothing. Keep container tightly closed. Use with adequate ventilation.

Information about fire - and explosion protection:

The product listed in this MSDS contains sodium azide, a chemical highly toxic in pure form. At product concentrations, though not classified as hazardous, concentration build-ups of sodium azide may react with lead and copper plumbing to form highly explosive metal oxides. Flush with large volumes of water to prevent azide build-up in plumbing.

Storage:

Requirement to be met by storerooms and receptacles: Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from metals.

Information about storage in one common storage facility: Not required

Further information about storage conditions: None

Storage class:

Class according to regulation on flammable liquids: void

Section 8 - Exposure Controls / Personal Protection

Additional information about design of technical facilities: No further data; see section 7

Ingredients with limit values that require monitoring at the workplace

The product does not contain any relevant quantities of material with critical values that have to be monitored at the workplace.

Personal protective equipment

General protective and hygienic measures

The usual precautionary measures are to be adhered to when handling chemicals

Respiratory protection: Not required

Protection of hands: Protective gloves

Eye Protection: Goggles recommended during refilling

Section 9 - Physical and Chemical Properties

Form: Liquid

Colour: Colorless

Odour: Odourless

Material Safety Data Sheet

According to 91/155 EEC

Melting point/Melting range: N/A
Boiling point/Boiling range: N/A
Flash point: Not applicable
Autoignition temperature: N/A
Danger of explosion: Product does not present an explosion hazard
Density: N/A
Solubility in / Miscibility with
 water : fully miscible

Section 10 - Stability and Reactivity

Thermal decomposition: No decomposition if used according to specifications
Dangerous reaction: No dangerous reactions known
Dangerous decomposition products: No dangerous decomposition products known

Section 11 - Toxicological Information

Route of entry: Skin Contact, Eye contact, Inhalation, Ingestion
Effects of acute exposure to Product:
 Acute poisoning may cause gastrointestinal irritation and renal failure. May be fatal if inhaled, swallowed or absorbed through the skin.
Effects of chronic exposure to Product:
 Chronic ingestion may result in salivary gland cancer which is characterized by nausea, vomiting, gastrointestinal ulcers, and hemorrhagic strokes. Laboratory experiments have shown mutagenic effects. Target organs: Kidneys and central nervous system.

Exposure Limits	Irritancy	Sensitization To Product	Carcinogenicity
N/A	N/A	N/A	N/A
Terratogenicity	Reproductive Toxicity	Mutagenicity	Synergistic Products
N/A	N/A	N/A	N/A

Section 12 - Ecological Information

General Notes: hazardous for water
 Do not allow product to reach ground water, water course or sewage system
 Danger to drinking water even if small quantities leak into the ground.

Section 13 - Disposal considerations

Waste disposal: dispose of in accordance with local official environmental regulations

Section 14 - Transport Information

Special shipping information: N/A

Section 15 - Regulations

Labelling according to European labelling guidelines:
 Observe the general safety regulations when handling chemicals.
 The product is not subject to identification regulations under EC Directives.

Section 16 - Other information

This information is prepared on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
